

# Fais le plein - Séance d'enseignement

On dessine avec le scotch de carrossier un tableau à double entrée sur le sol. Je montre avec des exemples basiques comment trouver les critères lorsque les formes sont déjà classées et comment classer des formes en tenant compte de critères (carré-triangle-rond/rouge-jaune).

Ensuite je fais quatre groupes et je donne un bac de formes d'une couleur différente par groupe. Je place des étiquettes avec les critères et les élèves doivent trouver des formes qui correspondent aux critères choisis. Nous vérifions le tableau tous ensemble.

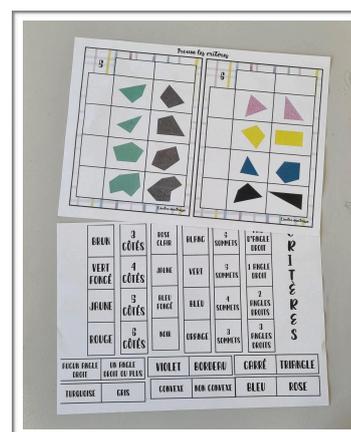

**Petit jeu:** Je donne les critères et les élèves dessinent la forme.

## -> JEU COMPLÉMENTAIRE - TROUVE LES CRITÈRES -

J'ai préparé un jeu pour que les élèves trouvent les critères des tableaux à double entrée avec des formes déjà classées. Je mets les critères sur les meubles de la classe et les élèves, après avoir observé leur carte et discuter des possibles solutions, se déplacent en groupe pour chercher ceux qui correspondent à leur tableau.

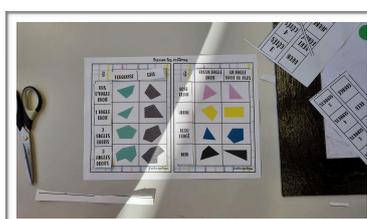

Les cartes 5 et 6 ont les critères les plus difficiles à trouver donc on fait une deuxième activité.

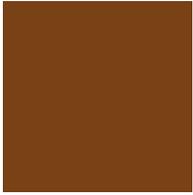

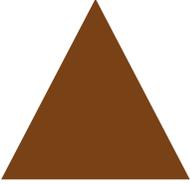

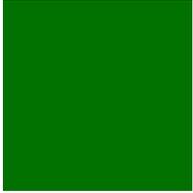

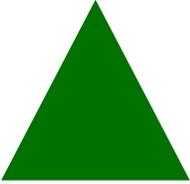

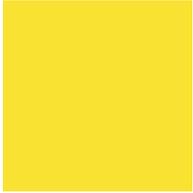

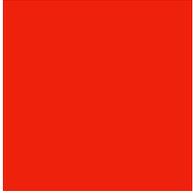

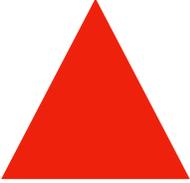

Je photocopie la feuille avec les cartes 5 et 6 et la feuille avec tous les critères.

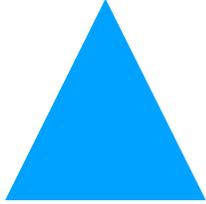

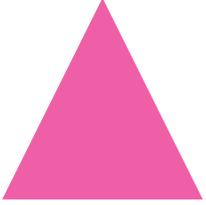

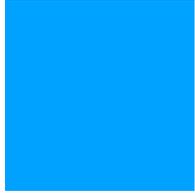

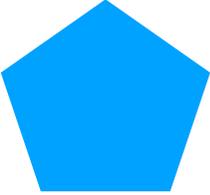

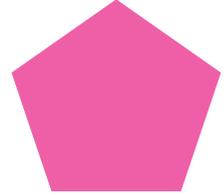

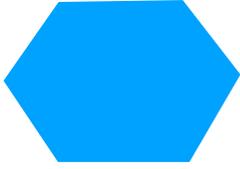

Les élèves sont à leur place avec tout le matériel et travaillent par deux. Ils doivent trouver les critères, découper et coller sur la fiche. Ceci leur permet d'avoir toutes les possibles réponses et les essayer, en réfléchissant avec leur camarade.
